**Re: Life Healthcare Group**

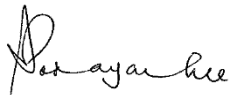

Life Healthcare Group contracted the services of Mpowered in 2016, when the scorecard was non-compliant.

The Mpowered BBEE software system provided a powerful, cost effective solution which made it easier to manage and plan ahead. Life Healthcare has since moved from a non-compliant status to Level 7, much of which we attribute to the accurate recording and reporting of data in the system and other initiatives in the business using the scenario planning tool to plan ahead.

The support services received by the consultant, Ofense Maduse has been exceptional. The patience, time and effort in providing her services are commendable.

We are proud to be associated with Mpowered and thank you for your exceptional services thus far. We look forward to your continued support and services as we strive ahead to reach a much more aggressive target in 2018.

Yours sincerely

Ansuyiah Padayachee  
Manager: Community & External Affairs – Life Healthcare Group
